### **PART II TEACHING PLAN**

#### **Introduction**

**ATTENTION:** During Week 6 and 7, we studied about tutoring. Today, you will instruct another cadet getting ready for his or her AE Achievement test. You will need to use the tutoring skills you learned during previous lessons.

**MOTIVATION:** Part of your responsibility as a Cadet Aerospace Education Officer is to help the cadets that are having trouble passing the AE Achievement test. You can do this by tutoring.

**OVERVIEW:** In Achievements 12 through 16, Staff Duty Analysis is part of the executive training. In this series of lessons on the Aerospace Education Officer, each cadet learns the various duties associated with the cadet aerospace education officer including tutoring other cadets studying for their AE Achievement tests.

**TRANSITION:** Shall we get started?

#### **Body**

**Instructor's Note:** Have each cadet select a CAP 2 cadet that needs help in passing the AE Achievement test and conduct a one-on-one tutoring session with that cadet on the AE Achievement test.

#### **Conclusion**

**SUMMARY:** A one-on-one tutoring session was conducted with CAP 2 cadets getting ready for the AE Achievement test.

**REMOTIVATION:** During Phase IV of the cadet program, you will be helping the younger cadets in learning Aerospace Education. It is important that you know how to help them pass the aerospace education test by tutoring when necessary.

**CLOSURE:** Next week, we will begin the second semester by learning about counseling techniques.
